Reporting period

2025 / 04 / 30 – 2026 / 09 / 30

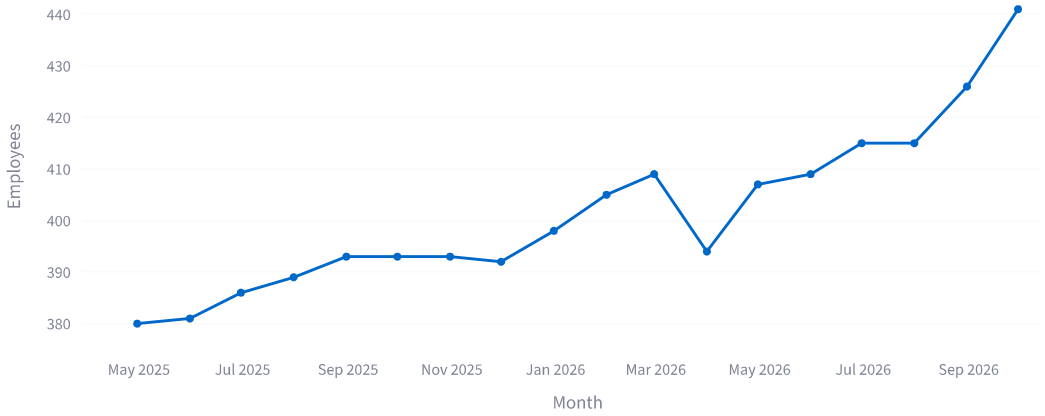

PulseIQ Workforce Dashboard

Workforce overview | Reporting through September 2026

Headcount (selected departments)	Change vs previous available month	Departments selected
441	15	11

Headcount trend

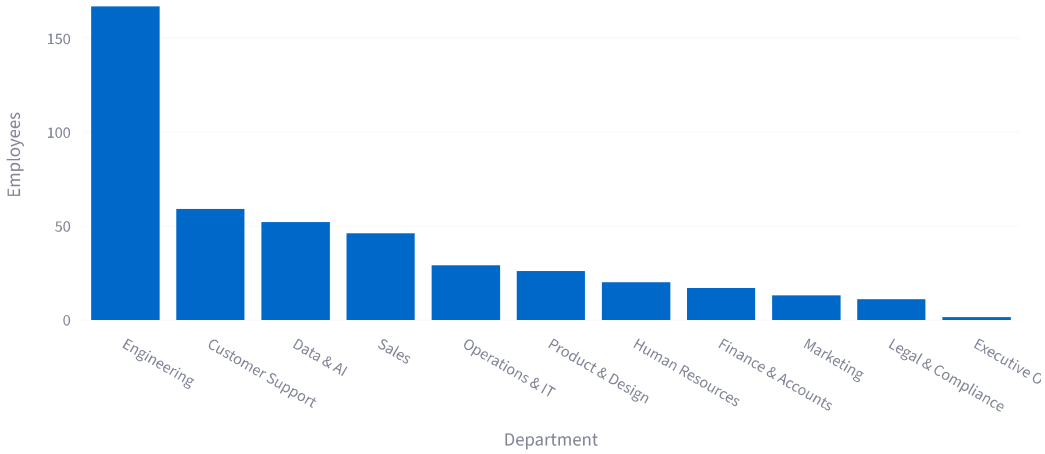

How headcount has changed over time

Insight: Headcount increased by 61 employees across the selected period.

Department workforce

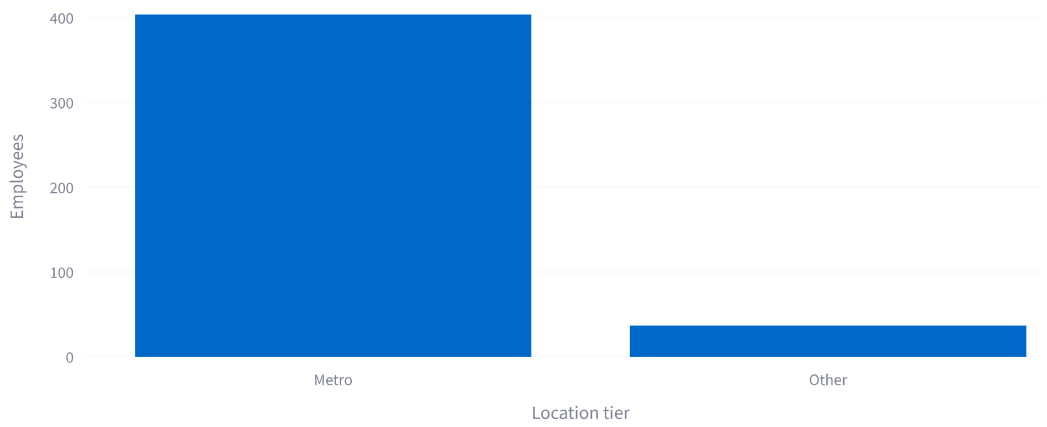

Department headcount in the latest selected month

Insight: Engineering has the highest headcount, with 167 employees in September 2026.

Employees by location tier

Current workforce by location tier

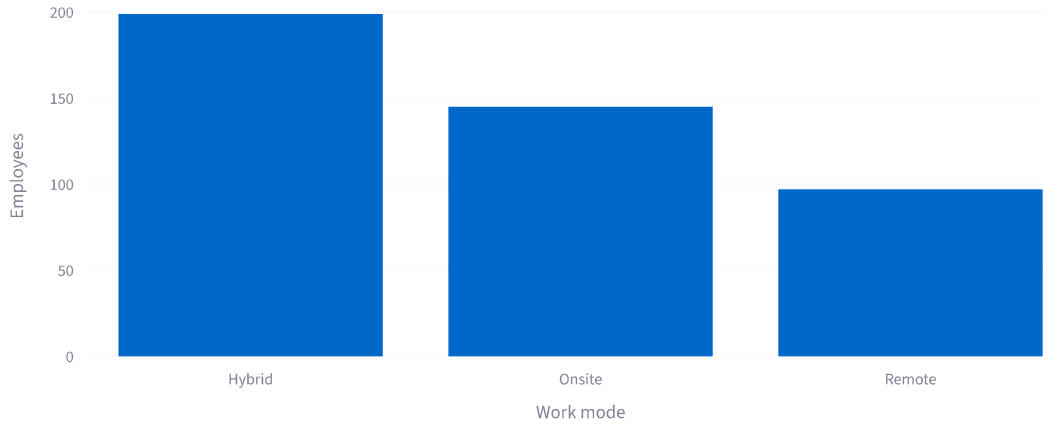

Insight: Metro locations have 404 employees.

Data note: Metro and Other are illustrative dashboard groupings, not official company location classifications. Location-tier figures show current employees and are not filtered by the reporting period or department selection.

Work mode distribution

Current workforce by recorded work mode

Insight: Hybrid is the most common recorded work mode, with 199 employees.

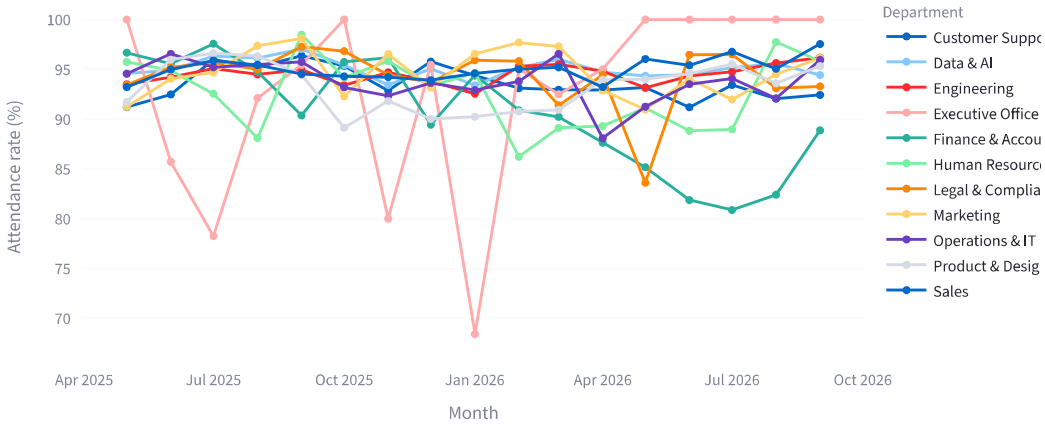

Data note: Work-mode figures represent current employees. Headcount charts use historical month-end figures.

Task 6: Attendance and Leave Trends

Attendance and leave trends use the selected reporting period. Department selection applies to attendance metrics.

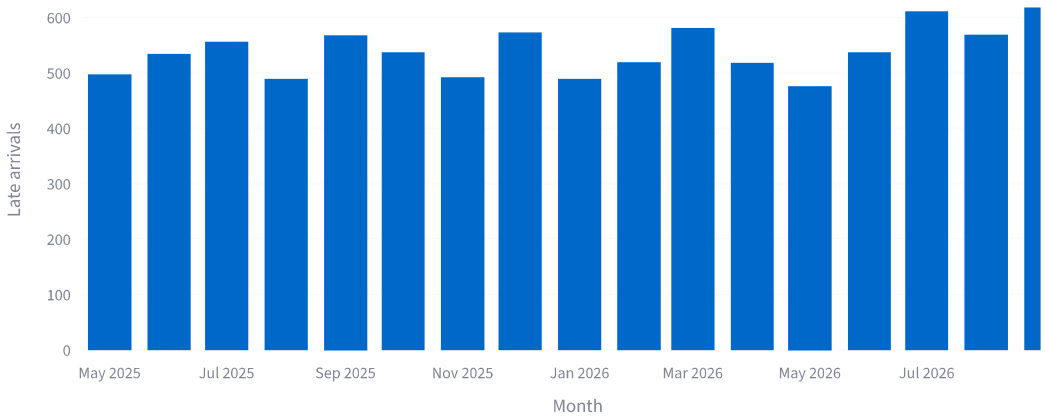

Monthly attendance rate

Monthly attendance rate by department

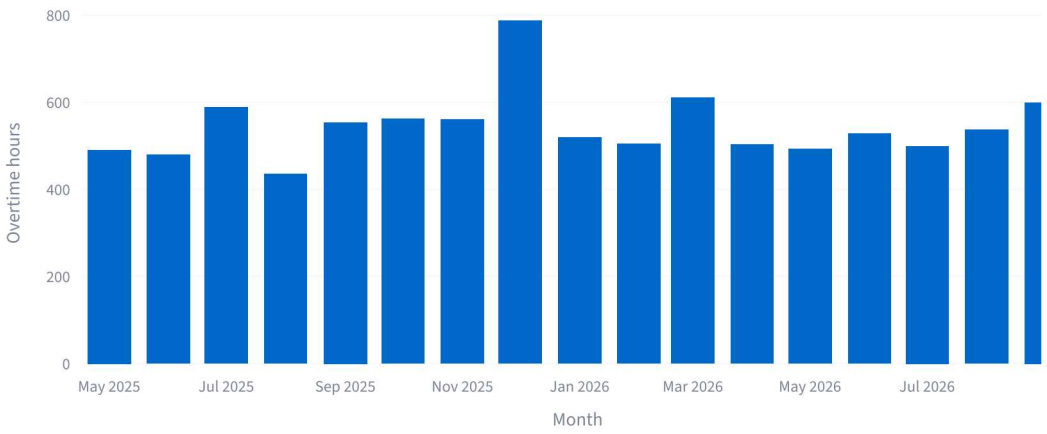

Late arrivals by month

Monthly late arrivals across selected departments

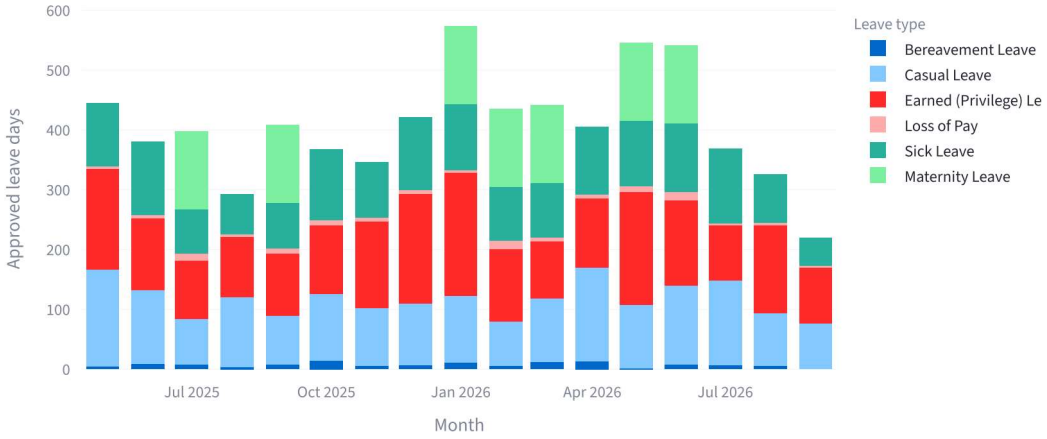

Overtime hours by month

Monthly overtime hours across selected departments

Leave trends by type

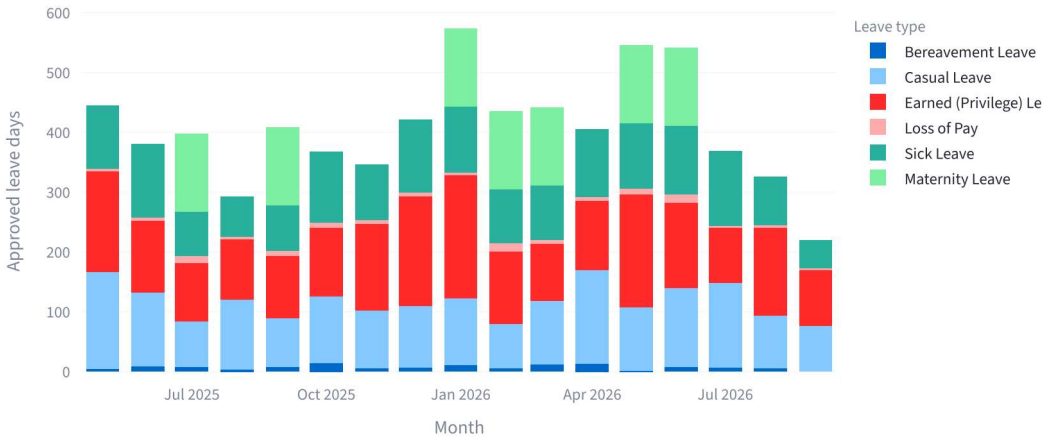

Monthly approved leave days by type

leave_type_name	approved_leave_days
Earned (Privilege) Leave	2238
Casual Leave	1866
Sick Leave	1660
Maternity Leave	910
Bereavement Leave	122
Loss of Pay	118

Leave trends by type

Monthly approved leave days by type

leave_type_name	approved_leave_days
Earned (Privilege) Leave	2238
Casual Leave	1866
Sick Leave	1660
Maternity Leave	910
Bereavement Leave	122
Loss of Pay	118

Holidays and long weekends

Holiday date	Holiday	weekday	calendar_note
2025-05-01 00:00:00	Labour Day	Thursday	Check nearby weekend
2025-08-15 00:00:00	Independence Day	Friday	Potential long weekend
2025-08-27 00:00:00	Ganesh Chaturthi	Wednesday	Check nearby weekend
2025-10-02 00:00:00	Gandhi Jayanti / Dussehra	Thursday	Check nearby weekend
2025-10-20 00:00:00	Diwali	Monday	Potential long weekend
2025-10-21 00:00:00	Diwali (Day 2)	Tuesday	Check nearby weekend
2025-12-25 00:00:00	Christmas	Thursday	Check nearby weekend

2026-01-26 00:00:00	Republic Day	Monday	Potential long weekend

Potential long-weekend holidays

7

These are potential long weekends based on Friday or Monday holidays. Actual company leave arrangements may differ. The workbook's holiday calendar is a sample calendar.

Unusual attendance months

Unusual months are the three months with attendance rates furthest from the selected period's average. This identifies statistical deviations, not proven causes.

month_start	attendance_rate_pct	rate_difference	late_arrivals	overtime_hours
2025-09-01 00:00:00	95.7073	2.0632	568	554
2026-01-01 00:00:00	91.6391	-2.005	489	519.5
2026-05-01 00:00:00	92.0745	-1.5695	476	492.5

Key numeric insights

Highest monthly attendance rate

95.71%

↑ Sep 2025

Lowest monthly attendance rate

91.64%

Highest monthly overtime

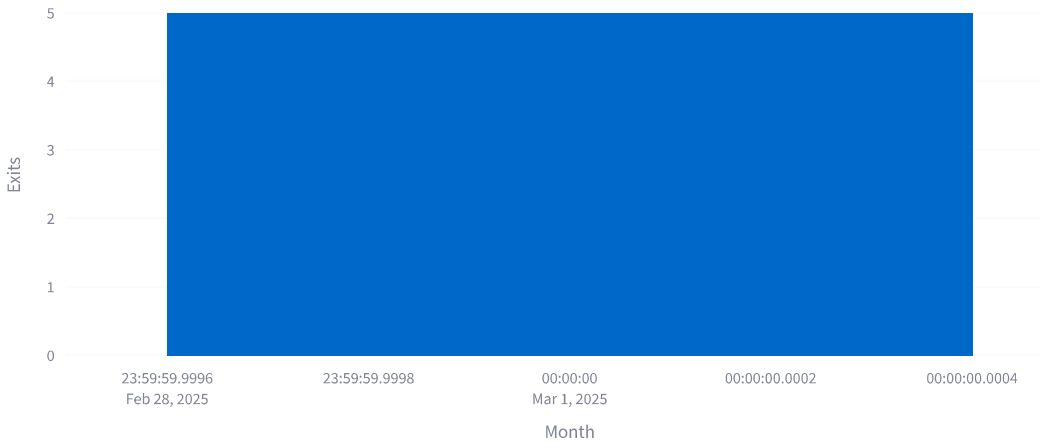

787.0 hours

↑ Dec 2025

Task 7: Attrition Analytics

Actual employee exits

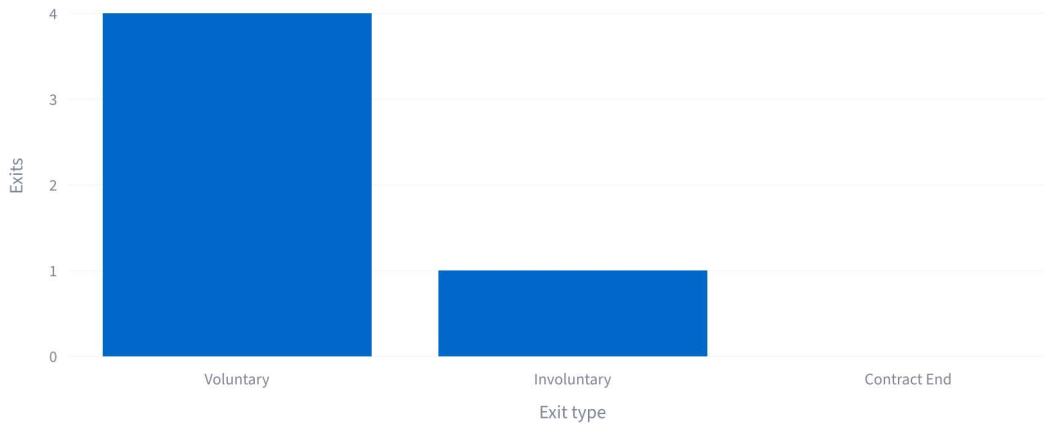

Monthly actual exits (groups with at least 5 exits)

Actual exits by department

Exit types in groups meeting the privacy threshold

Average tenure at exit

Month	Department	Average tenure (years)
2025-03-01 00:00:00	Engineering	6.15

Predicted, not certain

Employee attrition predictions are not available yet. A validated prediction model and risk dataset must be created before risk estimates can be displayed. Actual employee exits shown above are historical data, not predictions of future exits.

Three Key Historical Findings

1. **Total exits:** 304 employees exited during the historical period in the source dataset.
2. **Voluntary exits:** 267 of 304 exits were voluntary (approximately 87.8%).
3. **Highest annual exit count:** 2025 recorded 69 exits. The 2026 figure covers January to September only.

Privacy note: Groups with fewer than 5 employee exits are suppressed to reduce the risk of identifying individual employees. Therefore, the charts may show fewer exits than the overall historical source totals.

Task 8: Team Productivity Dashboard

Source: provided CSV.zip. Metrics follow metric_dictionary.csv. Velocity is for each team's own sprint trend and should not be used to rank teams.

Teams

Analytics & BI × Data Platform × Design Systems × DevOps & Reliability × Finance Automation ×
Growth Marketing × HR Systems × Internal IT × ML Services × Mobile Apps × Payments & Billing ×
Platform Core × Product Squad × QA Automation × Sales Enablement × Support Tooling ×

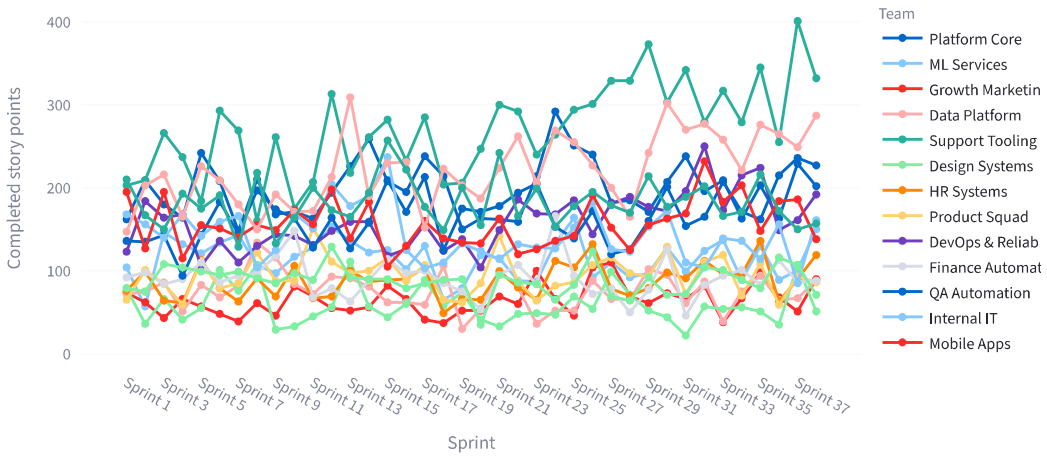

Sprints

Sprint 1 × Sprint 2 × Sprint 3 × Sprint 4 × Sprint 5 × Sprint 6 × Sprint 7 × Sprint 8 ×
Sprint 9 × Sprint 10 × Sprint 11 × Sprint 12 × Sprint 13 × Sprint 14 × Sprint 15 × Sprint 16 ×
Sprint 17 × Sprint 18 × Sprint 19 × Sprint 20 × Sprint 21 × Sprint 22 × Sprint 23 ×
Sprint 24 × Sprint 25 × Sprint 26 × Sprint 27 × Sprint 28 × Sprint 29 × Sprint 30 ×
Sprint 31 × Sprint 32 × Sprint 33 × Sprint 34 × Sprint 35 × Sprint 36 × Sprint 37 ×

Tasks in selection	Done tasks	Completion rate	On-time rate	Blocked tasks
28,868	24,139	86.3%	92.9%	999

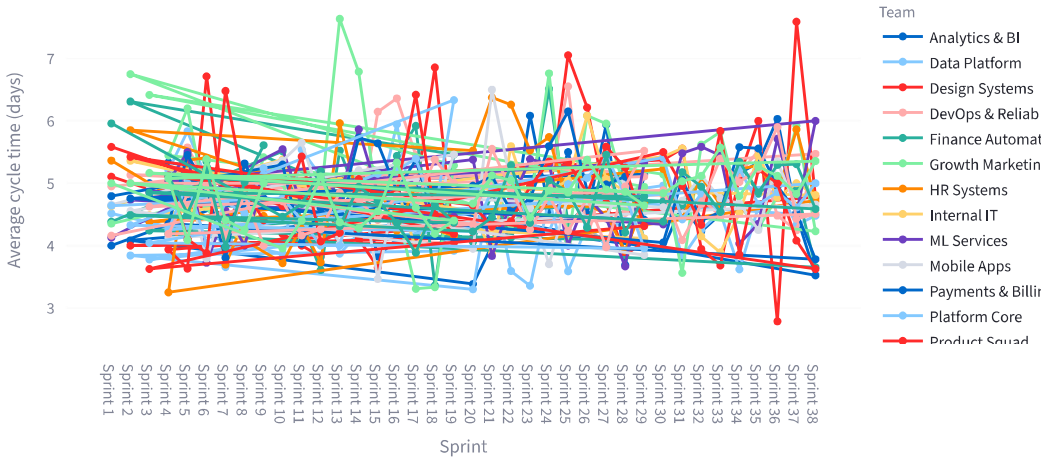

Velocity by team and sprint

Completed story points across each team's sprints

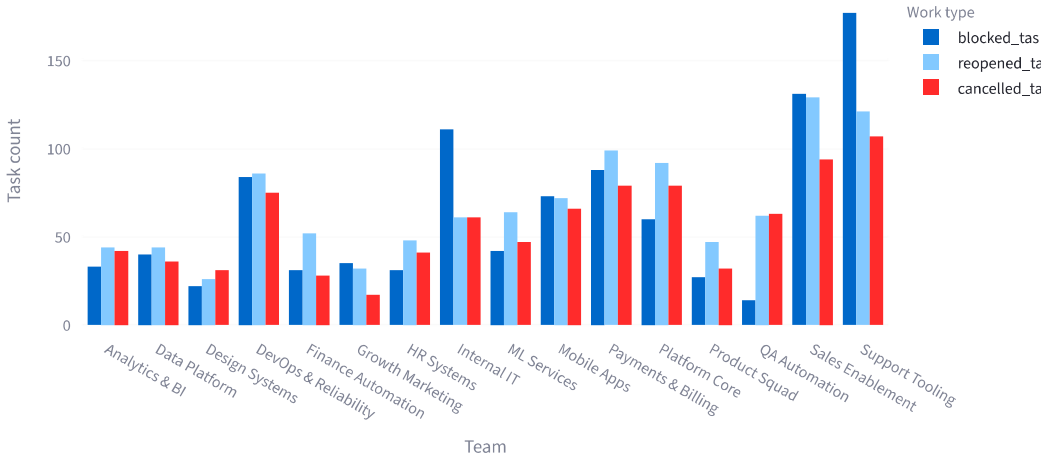

Average cycle time by team and sprint

Average valid cycle time

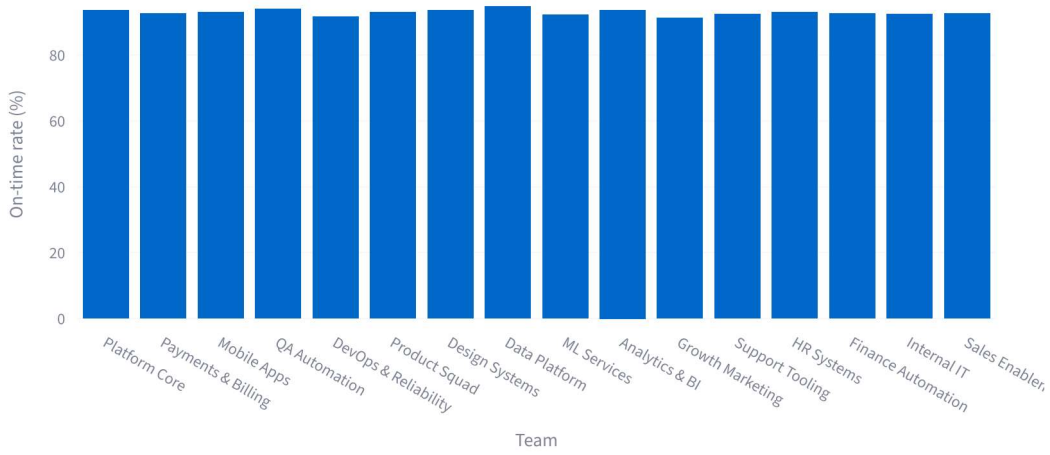

Blocked and reopened work

Blocked, reopened, and cancelled tasks

On-time delivery rate by team

On-time delivery rate by team (valid Y/N flags only)

Data-quality exclusions

Done tasks excluded from cycle-time calculation because dates are missing or completion precedes start: **20**.

Cancelled tasks are excluded from completion-rate denominator, velocity, and on-time delivery. Missing/invalid cycle-time records are not treated as zero.

Team sprint summary

Team	Sprint	Tasks	Velocity (story points)	Blocked	Tasks reopened	Cancelled
Platform Core	Sprint 1	58	162	2	4	3
ML Services	Sprint 1	38	104	1	1	2
Growth Marketing	Sprint 1	22	74	0	0	0
Data Platform	Sprint 1	31	72	0	2	0
Support Tooling	Sprint 1	91	203	6	2	4
Design Systems	Sprint 1	22	79	1	0	1
HR Systems	Sprint 1	30	76	2	0	1
Product Squad	Sprint 1	27	65	1	0	1
DevOps & Reliability	Sprint 1	49	123	1	2	1
Finance Automation	Sprint 1	30	92	1	0	0

Two-team metric verification

Team	Source task rows	Done rows	Non-cancelled denominator	Completion rate (%)	Valid on-time flags	On-time ra
Analytics & BI	1135	983	1093	89.94	983	
Data Platform	1061	889	1025	86.73	887	

Cross-checks are recalculated from the selected source CSV rows. To complete the assignment's independent manual audit, compare these two teams' counts with filtered rows in fact_task.csv.

Three team health findings

1. **Blocked work:** Support Tooling has the highest blocked-task count in this selection (**177**). This is a workload signal, not proof that the team is less productive.
2. **Reopened work:** Sales Enablement has the most tasks reopened at least once (**129**). Review task complexity and QA context before drawing conclusions.
3. **Delivery follow-up:** Growth Marketing has the lowest on-time rate among teams with at least 30 valid completed-task flags (**91.3%**, 630/690 on time). Treat this as a prompt for investigation, not a team-performance verdict.

Findings update with the team/sprint filters. Counts describe the selected data only; team size, sprint scope, task mix, and story-point estimation practices differ.

Task 9: Payroll Cost Dashboard

Payroll departments

Customer Support × Data & AI × Engineering

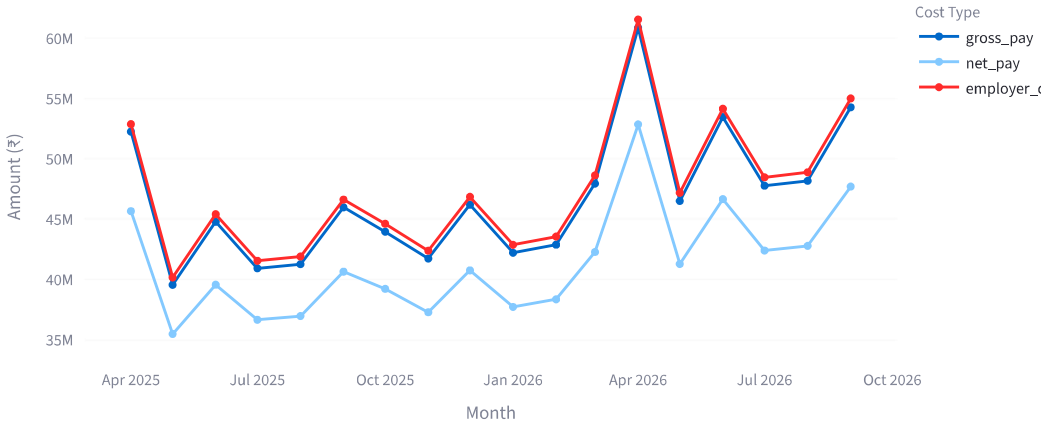

Payroll reporting period

Apr 2025 — Sep 2026

Gross Pay	Net Pay	Employer Cost	Employer Cost per Employee…
₹840,853,…	₹744,349,…	₹852,780,…	₹116,468

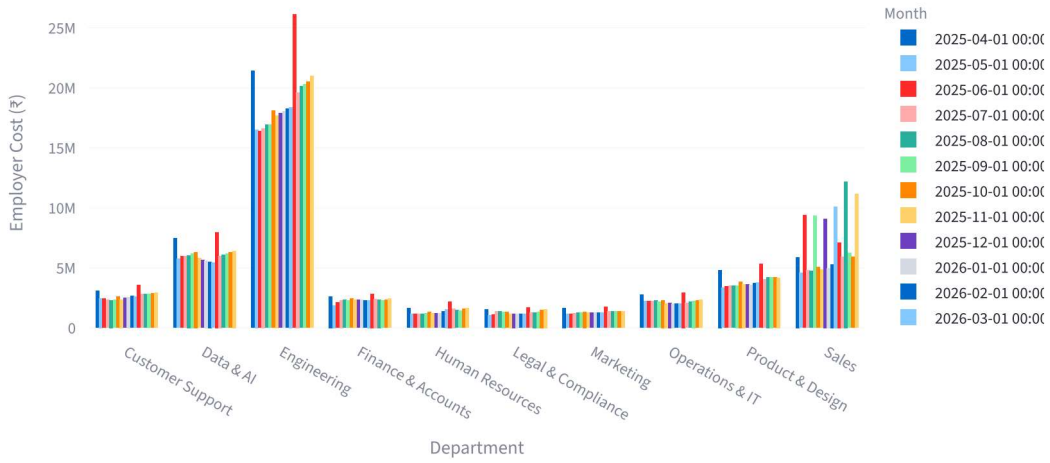

Monthly Payroll Cost Trend

Gross, Net and Employer Cost by Month

Payroll Cost by Department and Month

Employer Cost by Department and Month

2025-04-01 00:00:00	Sales	₹5,481,000	₹5,885,880	₹404,880	7.39%

KPI Performance Against Targets

Attendance is shown as a percentage. Green means the target is met; red means it is missed. Other KPIs are retained in the target table for comparison as their actual metric definitions are confirmed.

month	department_id	attendance_actual_pct	attendance_target_pct	attendance_status	overtime_share_target_pct
2025-04-01	D01	46.29%	94.00%	Red	0.50%
2025-04-01	D02	64.35%	94.00%	Red	0.50%
2025-04-01	D03	44.23%	94.00%	Red	0.50%
2025-04-01	D04	60.90%	94.00%	Red	0.50%
2025-04-01	D05	63.26%	94.00%	Red	0.50%
2025-04-01	D06	74.82%	94.00%	Red	3.00%
2025-04-01	D07	61.07%	94.00%	Red	3.00%
2025-04-01	D08	55.81%	94.00%	Red	3.00%
2025-04-01	D09	68.83%	94.00%	Red	3.00%
2025-04-01	D10	77.50%	94.00%	Red	0.50%

Management Recommendations

- **Data & AI**: actual payroll is ₹992,768 above budget. Review hiring, overtime and payroll changes before revising the forecast.
- **Product & Design**: actual payroll is ₹608,352 above budget. Review hiring, overtime and payroll changes before revising the forecast.

Fairness note: the approved budget may not reflect the hiring freeze. Keep the original budget unchanged for audit purposes, flag affected months, and explain staffing changes before judging departments solely on overspend.

Task 11: Profit & Loss and Expense Analytics

Monthly Financial Overview

Select reporting month

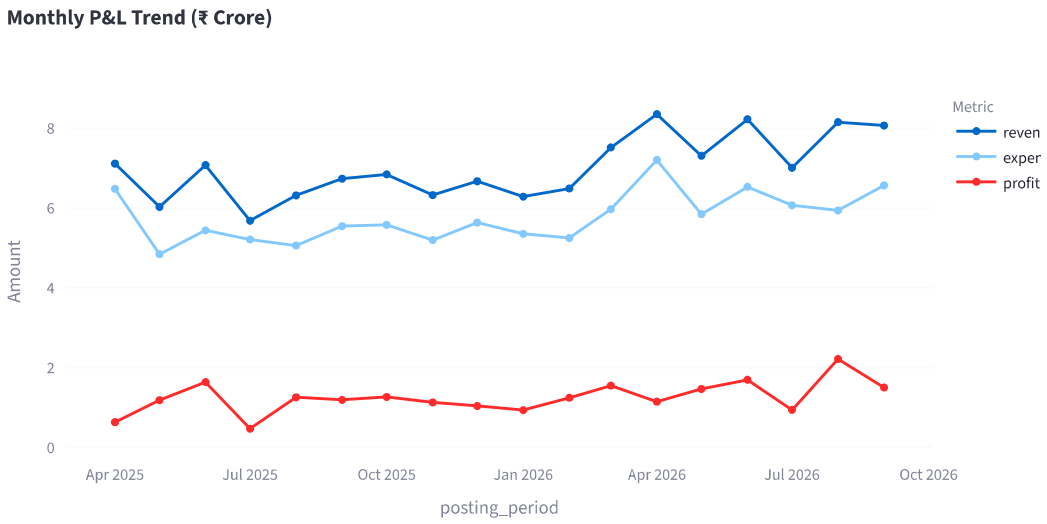

2026-09

Revenue	Expenses	Net Profit	Profit Margin
₹8.06 Cr	₹6.56 Cr	₹1.50 Cr	18.59%

Monthly Profit & Loss Table

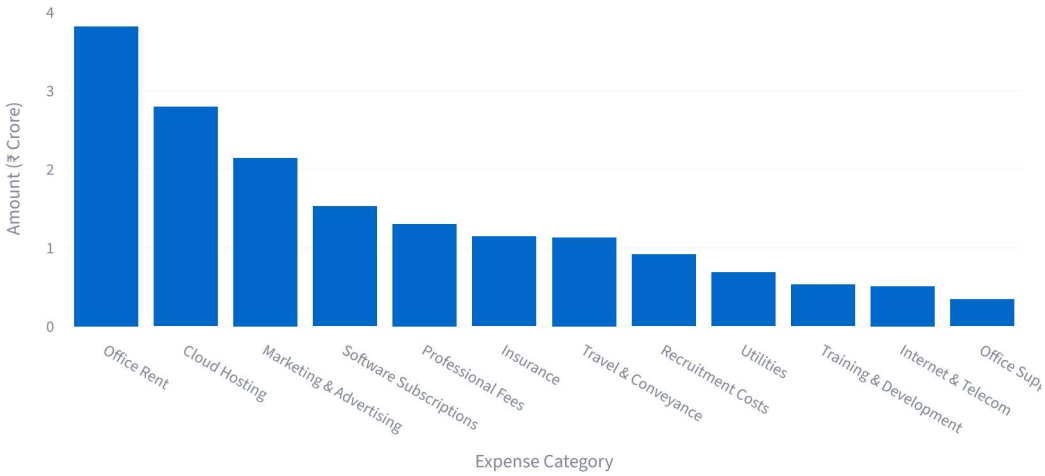

Month	Revenue (₹ Cr)	Expenses (₹ Cr)	Profit (₹ Cr)	Margin (%)
2025-04	7.11	6.48	0.63	8.88
2025-05	6.02	4.84	1.18	19.65
2025-06	7.07	5.44	1.64	23.13
2025-07	5.68	5.21	0.47	8.27
2025-08	6.31	5.05	1.26	19.91

2026-01	6.28	5.35	0.93	14.84

Revenue, Expenses and Profit Trend

Expense Analysis by Category

Expense by Category (Excluding GST)

Top 10 Vendors

Vendor	Expense (₹ Crore)
Skyline Realty Holdings	1.69
StratoHost Infrastructure	1.42
NimbusCloud Services	1.37
Marina Business Park LLP	1.21
BrandBridge Agency	0.96
Garden City Workspaces	0.92
PixelPulse Media	0.77
Medicare Group Health Cover	0.66
Ledger & Co Chartered Accountants	0.65
DataLens Analytics Licences	0.59

README Headline Reconciliation

Metric	Calculated	README	Unit	Difference
Revenue	126.09	126.09	₹ Crore	0
Expenses	103.63	103.62	₹ Crore	0.01
Profit	22.47	22.47	₹ Crore	0
Profit Margin	17.82	17.8	%	0.02

Small rounding differences exist between the calculated P&L totals and the README headline figures. Please review the Difference column in the table above.

Three Business Findings

1. Salaries and wages are the largest P&L expense, contributing approximately INR 78.69 crore.
2. Office rent, cloud hosting and marketing are the largest expense-register categories. Skyline Realty Holdings is the top vendor, with approximately INR 1.69 crore in expenses.
3. Profit margin changes significantly across months. It reached 27.16% in August 2026 and fell to 18.59% in September 2026.

Possible Causes of Margin Changes

1. Payroll growth: Higher salaries, employee headcount or overtime may increase expenses. Verify using monthly payroll and headcount data.
2. Higher operating costs: Rent, cloud hosting or marketing expenses may reduce profit margin. Verify using monthly expense-category data.
3. Vendor spending changes: Higher vendor bills may increase operating costs. Verify using monthly vendor expenses and corresponding ledger postings.

Task 12: Invoices, Receivables and Cash Flow

Open receivables include only SENT, OVERDUE and PARTIALLY_PAID invoices. DRAFT and CANCELLED invoices are excluded.

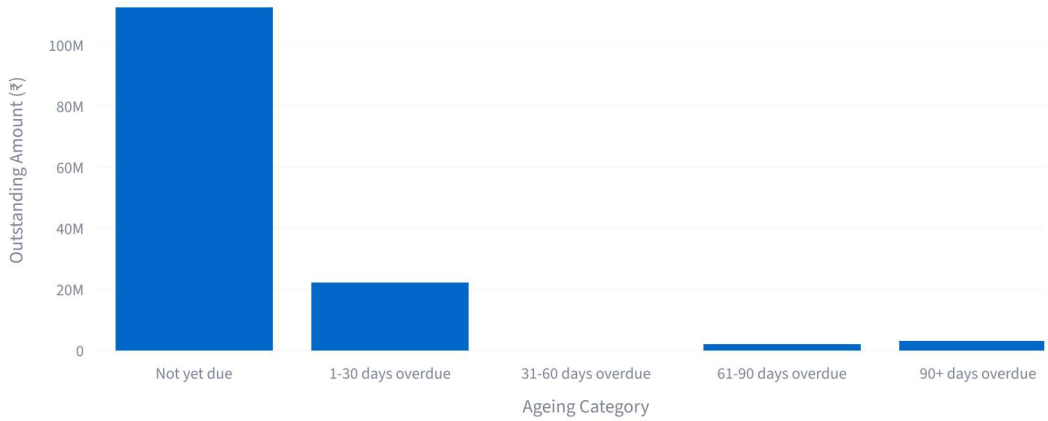

Receivables Overview

Open Receivables	Open Invoices	Overdue Invoices
₹139,394,278	62	12

Receivables Ageing

ageing_category	balance_due

2025-12	₹79,953,993.52	₹13,944,921.20	₹66,009,072.32
2026-01	₹65,281,665.84	₹11,045,863.00	₹54,235,802.84

Business Findings

Highest overdue exposure: Marina Media Works has ₹7,110,208 overdue.

Slowest average payer: Triveni Steel Industries takes 121.2 days on average, against agreed terms of 60 days.

Finance recommendation: Review clients whose average payment time exceeds agreed terms. Confirm contract terms, reasons for delays, outstanding exposure and expected collection dates.

Cash movement includes invoice payments received and paid expenses only. It does not represent complete company cash flow because payroll and other cash movements are not included.
